

Kansas City Zoo Photo Club Newsletter

June 2005

Our members were given the opportunity to join the docents and their families for a preview of Silver, the visiting white tiger. Several members met at the zoo before the normally

scheduled meeting and took the opportunity to get some pictures of Silver. As the tarp was taken off the front of her new home, she took great interest in her new neighbors...Jill & Josey the zoo's mother and daughter Orangutans.... and they kept a close eye on her too. During the meeting, several members took the opportunity to show the pictures they had taken. For those of you who have not been out to see her, I highly recommend the trip! Pictures have been added to the Photo club's website at www.zoophoto.org. Just above the photo is a link for the white tiger page. You can also click on the picture just to the right of our club title.

Copyright Symbol & Name Brush

Open a new file in Photoshop. Choose a font that you like and type your name, followed by Alt 0169 (if the font you choose does not have a copyright symbol, you may need to change font while pressing Alt 0169. Double click on the background layer in the layers palette. A new window will open. Click ok. Back in the layers palette, click on the eye next to the bottom layer. This should cause the background layer to disappear. Go to the top toolbar and click Edit, then go to Define Brush. Name your brush. It should now appear at the bottom of your brushes. You can resize this to the exact size you need! If you need additional guidance, you can contact me or talk to me at the next meeting. If you would prefer to have me add your name, just let me know exactly what you would like on your picture, and I'll add it before I add to the website!
